Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a student / blogger / content creator	create and manage blog content quickly with AI assistance	writing a complete blog manually can take considerable time and effort	I need a simple system that supports secure access, blog management, AI content generation and summarization	overwhelmed by the time required to create content and relieved when I can get an AI-assisted starting point
PS-2	a student / blogger / content creator	understand lengthy blog content quickly and keep my posts organized	long content can take time to understand and managing posts manually can be inconvenient	I need AI summarization and easy create, read, update and delete operations for my blogs	more confident and satisfied when I can summarize content and manage my blogs in one system
