

Project Design Phase-II

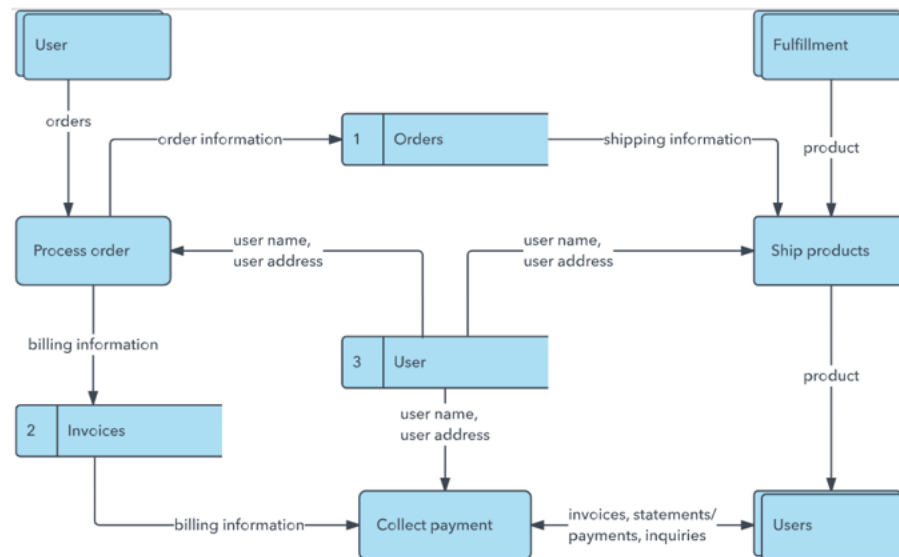

Data Flow Diagram & User Stories

Date	29-SEPTEMBER-2026
Team ID	6ab4c24ba238dc999eb5437a
Project Name	AI BlogNest API
Maximum Marks	4 Marks

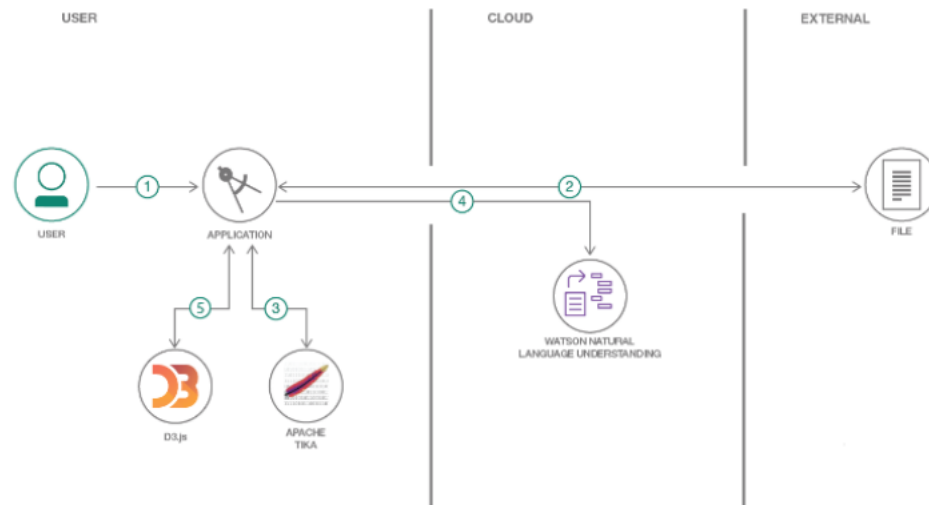

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

Flow

Level 0 DFD – AI BlogNest API

User/API Client → Express REST API → Authentication / Blog / AI Modules

Authentication & Blog Modules ↔ MongoDB

AI Module ↔ Google Gemini API

API Response → User/API Client

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
API User	Registration	USN-1	As a user, I can register by submitting my name, email and password.	A valid user account is created and a successful response is returned.	High	Sprint-1
API User	Login	USN-2	As a user, I can log in using my email and password.	Valid credentials authenticate the user and provide access to protected operations.	High	Sprint-1
API User	Profile	USN-3	As an authenticated user, I can retrieve my profile.	A valid JWT allows access to the profile endpoint.	High	Sprint-1
API User	Blog Management	USN-4	As an authenticated user, I can create a blog post with title, content and category.	The blog is stored and a successful response is returned.	High	Sprint-2
API User	Blog Management	USN-5	As a user, I can retrieve all blog posts.	The API returns the available blog records.	Medium	Sprint-2
API User	Blog Management	USN-6	As a user, I can retrieve a blog post by its ID.	The requested blog is returned when the ID exists.	Medium	Sprint-2
API User	Blog Management	USN-7	As an authenticated user, I can update my blog post.	The selected blog fields are updated successfully.	Medium	Sprint-2
API User	Blog Management	USN-8	As an authenticated user, I can delete my blog post.	The selected blog is removed successfully.	Medium	Sprint-2
API User	AI Content	USN-9	As a user, I can generate a blog from a topic.	The AI endpoint returns generated blog content for the supplied topic.	High	Sprint-3
API User	AI Content	USN-10	As a user, I can summarize blog content.	The AI endpoint returns a concise summary for the supplied content.	High	Sprint-3
