

Project Demo Planning

Date	15 March 2026
Team ID	6ab4c24ba238dc999eb5437a
Project Name	XXXXXX
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce AI BlogNest API, its purpose, target users and main problem addressed.	2	To be assigned
2	Technology Stack & Architecture	Explain Node.js, Express, MongoDB/Mongoose, JWT, bcrypt and Gemini integration.	2	To be assigned
3	Authentication Demonstration	Register, login and profile retrieval using JWT-protected authentication.	3	To be assigned
4	Blog CRUD Demonstration	Create, read, update and delete blog posts through REST endpoints.	4	To be assigned
5	AI Features Demonstration	Generate an AI blog and summarize blog content using the AI endpoints.	3	To be assigned
6	Testing & Conclusion	Show Thunder Client/Postman requests,	3	To be assigned

		summarize results and answer questions.

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an API that combines blog management with AI-assisted content generation.
2	Solution Overview	Present the REST API architecture, authentication flow, MongoDB persistence and AI integration.
3	Live Feature Demonstration	Run registration/login, protected profile access, blog CRUD, AI blog generation and summarization.
4	Q&A Session	Answer questions about technologies, API endpoints, database, authentication, AI integration and future scalability.
